Administrators

Requirement	State
• Administrators can remove items and users from mysouq.	✔
o **Extra Credit** – Notify the reseller when one of their items has been removed by an administrator.	✔
• Administrators can add new categories.	✔
• Administrators can approve or decline new category requests from resellers.	✔
o **Extra Credit** – Notify the reseller when one of their new category requests has been approved or declined by an administrator.	✔
• Administrators can disable the account for any user.	✔
o Login attempts with disabled accounts must show an error message instructing the user to contact the support service provider.	✔
• **Extra Credit** - Administrators can enable maintenance mode, which will route all user requests to page with a message that the system is currently in maintenance mode and will be back online shortly.	✔

• **Extra Credit** – Administrators can view a high-level report of the marketplace.
   o How many users?
   o How many resellers?
   o How many items?
	✔

Reseller

Requirement	State
• Resellers can add items for sale to mysouq.	✔
o Resellers must provide a title, short description, price and a category for their item.	✔
o Resellers are not able to add new categories.	✔
o **Extra Credit** – Resellers can request a new category to be added but this request must first be approved by the admin before the newly recommended category can be used.	✔ ✔ ✔
o **Extra Credit** – Resellers can hide items from being visible for sale on mysouq.	✔
• Resellers can edit any of their items for sale on mysouq.	✔
• Resellers can view incoming buy requests in the notifications area.	✔
o Resellers can approve or decline any buy requests sent by any buyer for any of their items.	
o Resellers can approve buy requests only for items that are still available.	✔
• Resellers can delete any of their items for sale on mysouq.	✔
o Items that have pending buy request cannot be deleted until all buy requests have been processed.	✔ ✔

Buyers

Requirement	State
• Buyers can sign up for mysouq by providing their full name, birthdate, a valid email, and a password.	✔
• Buyers can login in using valid credentials.	✔
• Buyers can edit their profile.	✔
• Buyers can change their password.	✔
• Buyers can browse all available items on mysouq.	✔
• Buyers can add any items to their favourites list.	✔
• Buyers can search for items based on any of the attributes available in the item.	✔
• Buyers can sort all of the items based on the date they were added, or the price, in both ascending or descending order.	✔
• Buyers can send buy requests on any available item on mysouq. o Items are not marked as sold until the reseller approves the buy request.	✔
• Buyers can view previously sent buy requests along with their status (pending, approved, declined).	✔

• Buyers can request to upgrade their account to a reseller level.
    o After the request is approved by an admin, the user can then sell items on mysouq.
    o If the request is approved or declined by an administrator, the user is notified in the notifications area.
